ThinkPad T14 Gen 3 *i*

Thinner, lighter, and redesigned with a higher screen-to-body ratio and new 16:10 aspect ratio for more expansive views, ThinkPad T14 Gen 3 *i* delivers uncompromised performance and intentional sustainability. This endlessly configurable device is packed with Intel vPro® with 12th Gen Intel® Core™ U or P series processors and more powerful Nvidia® GeForce® graphics options. Expanded storage, a larger battery, and an improved keyboard further enhance productivity.

ThinkPad T14 Gen 3 *i* is the perfect companion for professionals on-the-go with blazing-fast Intel® Wi-Fi 6/6E (Gig+) and 4G/LTE CAT16 connectivity options. It also comes with enhanced AI security features, such as ePrivacy with PrivacyGuard to shield your screen from shoulder surfers for enhanced protection in crowded settings. This combines with built-in ThinkShield and Intel vPro® platform security to keep devices, users, and data secure.

Smarter technology for all

Lenovo

ThinkPad T14 Gen 3 *i*

POWER-PACKED PERFORMANCE

ThinkPad T14 Gen 3 *i* is built to perform with Intel vPro® Enterprise with 12th Gen Intel® Core™ U and P series processors and up to 48GB DDR4 memory. Expanded storage—up to 2TB Gen 4 performance PCIe—combines with powerful graphics options that include Intel® Iris® Xe and Nvidia® GeForce® MX and RTX discrete graphics for a device that keeps pace with everything users do day and night.

ENHANCED USER EXPERIENCE

Expect more from ThinkPad T14 Gen 3 *i*, like digital wellness features designed to keep users healthy and productive. This includes Glance software, which aims to support wellness with posture alert and reminders to look away for 10 seconds to allow the user's eyes to refocus and alleviate fatigue. New Low Blue Light display options further support eye health.

BUILT FOR WORK AND PLAY

With display options that range up to WQUXGA Touch with Dolby® Vision™, an optional FHD camera, Dolby® Audio™ Speaker System, and new Dolby® Voice AI noise suppression technology, ThinkPad T14 Gen 3 *i* delivers an immersive and impressive audio/visual experience whether videoconferencing for work, creating content on the side, or consuming it just for fun.

EVERYWHERE CONNECTVITY

Along with an expansive array of ports, ThinkPad T14 Gen 3 *i* also assures users of blazing-fast Gigabit Internet speeds no where they happen to be thanks to Intel® Wi-Fi 6E and LTE CAT 4, CAT16, and CAT20 connectivity options.

SMARTER SECURITY

This secured-core PC features enhanced built-in ThinkShield security solutions combined with hardware-based security powered by Intel vPro® security to help protect data and your business against the latest evolving threats. There's also a PrivacyGuard display option to prevent would-be data thieves from seeing sensitive information on screen.

[1]Product packaging shall contain, on average, a minimum total percentage of 90% by weight of any combination of the following materials: Recycled content, biobased plastic, non-wood biobased fiber material, and/or sustainably forested material.

sustainability

The ThinkPad T14 Gen 3 *i* uses 90% recycled and/or sustainable packaging[1], as well as PCC recycled material for the battery brackets, speaker enclosures, and AC adaptors. All Lenovo devices are manufactured using low-temperature solder for reduced emissions. And by 2025, Lenovo aims to obtain 90% of electricity for global operations from renewable sources and remove one million tons of greenhouse gas emissions from the supply chain.

customization

Between processor, memory, storage, display, and security options, ThinkPad T14 Gen 3 *i* offers nearly unlimited configurations, making it one of the most popular and personal computers on the market.

security

With an option to add an RFID reader and FIPS 201-compliant fingerprint reader, ThinkPad T14 Gen 3 *i* aligns computer access with facility access, enabling secure network authentication with the tap of a badge. Antimicrobial treatment is also an option.

ThinkPad T14 Gen 3 *i*

Lenovo offers a comprehensive portfolio of end-to-end services to support and protect your investment—so you can focus on the job at hand, not IT.

Services

PREMIER SUPPORT

Provides direct access to skilled and experienced Lenovo technicians offering comprehensive hardware and software support. Gives you a consistent point of contact within Lenovo to ensure that your case resolution is professionally managed from start to finish.

BULK PACKAGING SERVICE

Bulk Packaging is an environmental packaging solution designed for multiple product types. Each package contains multiples of one like-type product to minimize the amount of material used without jeopardizing the integrity of packaging necessary to protect product in shipping process.

CO_2 OFFSET SERVICE

As an option with the hardware purchase, the Lenovo CO_2 Offset Service gives customers a simple and transparent way to give back to the environment by helping them offset the carbon emissions associated with their Lenovo PC. With it, Lenovo has calculated the carbon emissions of its PCs across their lifecycle, from manufacture and shipment, all the way through usage and disposal. Carbon offset credits are later purchased based on the calculated emissions of the specific device, and Lenovo's carbon offset partner contributes them to one of several United Nations Climate Action projects.

Accessories

Lenovo Thunderbolt Dock Gen 2

Broadly compatible, this dock expands data, power, and video, providing one connection with no limitations.

PN: 40AN0135AU

Lenovo Professional Wireless Keyboard & Mouse Combo

Slim, wireless keyboard with responsive key feeling, adjustable tilt leg, numeric keypad, and spill resistant design. Full-size wireless ambidextrous mouse features five button design for four-way scrolling. Connect both using only one nano USB wireless receiver.
