

## LATITUDE 3480 MOBILE THIN CLIENT

### Security and centralized control for digital workspaces, in a mobile package

Designed to securely deliver virtual desktops to mobile users, the Latitude 3480 mobile thin client leverages the thoughtful design and user experience of the Latitude portfolio with durable, enterprise-class chassis designed to meet the demands of today's mobile worker. Built with a robust feature set including Intel dual core processors with integrated graphics for a rich multimedia experience. This new mobile thin client delivers great value with a 14" Full-HD display and robust connectivity with plenty of ports. With a sleek, portable design, this mobile thin client is easy to carry and let you work on-the-go.

### Flexible connectivity

The Latitude 3480 mobile thin client supports a wide variety of virtual desktop brokers including Citrix XenDesktop and XenApp, VMware Horizon, and Microsoft RDS right out of the box and connects to a broad range of peripherals and desktop / application virtualization environments using a fast, rich Windows 10 IoT Enterprise experience.

### Easy to manage, highly scalable

The Latitude 3480 mobile thin clients are easily manageable through Wyse Device Manager (WDM), Wyse Management Suite and Microsoft's System Center Configuration Manager (SCCM). Administration easily scales from just a few to tens of thousands of mobile thin clients.

For enhanced security, optional advanced threat protection in the form of Dell Threat Defense offers proactive malware protection.
